## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 3, 2009, has been entered.

### ***Response to Amendment***

2. Claims 1-21 are now pending.

### ***Response to Arguments***

3. Applicant's amendment has overcome the rejection set forth in the final Office action.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-16 and 21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 has been amended to recite the

formation of a metal layer on the plate, but the originally-filed specification does not support the formation of any and all metal layers on the substrate. Rather, only those that facilitate separation of the plate and the organic resin. See [0017]. Consequently, the full scope of Applicant's amendment is not supported by the originally-filed disclosure.

***Allowable Subject Matter***

6. Claims 17-20 remain allowed.
7. The following is an examiner's statement of reasons for allowance: The reasons for allowance remain the same as set forth in the prior Office actions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
